

SAGE Fees and Charges Policy

as at April 2016

1. Application

SAGE's pricing policy generally supports the cost recovery philosophy. It recognises people's ability to pay and balances an expectation that some workshops, programs, activities and events will be cross-subsidised from other income sources.

2. Fees and Charges

SAGE intends to charge or recover a fee for some services it provides such as:

- Supplying a service, product or commodity;
- Giving information or providing consultation;
- Allowing admission to SAGE or an event at SAGE.

Fees and charges will be broadly classified according to the following pricing methodology:

- Full cost recovery - Recovery of costs including site use, materials supply, volunteer time, meal provision and program delivery
- Partial cost recovery - Subsidised operations which are of benefit to the community as a whole, particularly keeping low-income users in mind.
- Commercial pricing - The price of the service is determined by examining alternative prices of surrounding service providers.

In determining which pricing methodology is appropriate for each type of service, the SAGE Executive will review the fees and charges below on an as needed basis.

3. Pricing
